

ADDENDUM NUMBER 001

To the drawings and specifications for:

Project No. 19060
Maumee City Schools
Summer Paving Projects

This Addendum supplements and amends the original Drawings and Specifications dated March (5) 2020, and shall be taken into account in preparing bids and becomes a part of the contract documents. Note: this addendum information is issued to bidders of record. It is the prime contractor's responsibility to forward this Addendum information to all affected suppliers and sub/contractors and make adjustments relative to the proposal. Bidders should acknowledge receipt of Addendum on Page BF-1 of the Bid Form, or the last page of this Addendum.

DRAWINGS AND SPECIFICATIONS

1. General Conditions / Supplementary Conditions (Issued for first time)

- a. The standard form of "General Conditions of the Contract for Construction", of the American Institute of Architects, A201 - 2017 edition, is hereby incorporated into and becomes a part of the Specifications for this work.

2. Specification Section 01010 – Summary of Work (Not Reissued)

- a. Page 01010-2 Base Bit Item 2 – Wayne Trail Elementary Bus Loop Replacement:
 - i. Provide for 700 ton #304 aggregate base in base bid in lieu of 475 ton.

3. A3.0 – Site Pavement Details (Not Reissued)

- a. Concrete curb detail shall be modified to be 1'0" below grade in lieu of 1'6" below grade, bringing the total height of the curbs to be 1'6" in lieu of 2'0" for standard curb forms. All other aspects of curb design shall remain unless noted otherwise. Reference details 4, 5, and 12 on sheet A3.0.
- b. Remove requirement for bituminous prime coat for standard and heavy duty asphalt paving. Reference detail 1 and 2 on sheet A3.0.

CLARIFICATIONS & RFI RESPONSES

- 1. **BID OPENING EXTENSION:** The bid deadline will be extended by one week to **Wednesday April 1st no later than 1:00pm local time.**
- 2. **Clarification:** Existing asphalt paving at Wayne Trail Elementary contains a paving fabric between asphalt layers. For bidding purposes, the bidder shall assume the existing asphalt to be milled and disposed legally, off-site. Additional allowance for new #304 aggregate base material to make up the difference in material has been increased from 475 ton to 700 ton.

Project No. 19060
Maumee City Schools
Summer Paving Projects
Addendum Number 001
March 20, 2020

3. *Clarification:* For bidding purposes, intended removal of existing asphalt paving at Fairfield Elementary will be pulverization. Pulverized material shall be stockpiled and reused as base material. The requirement for 4" min top dressing of new #304 aggregate base material remains.
